

# Josh Cameron

Client Success Manager

## About

During the first part of my career I worked as a marketing manager for multiple healthcare organizations. Most recently, I was at a multi-site oncology group based in Texas. There I became a Marketware client, where I utilized the growth suite to develop my team and grow our market share in Houston's highly competitive medical market.

I am a remote employee, based out of Texas and oversee the Southern region of the United States. I look forward to partnering with you and empowering your team to make more strategic business decisions while effectively using our solutions.

## Interests

My wife and I love to travel (while we have no kids)! Attendance at Astros games is frequent. While I am a picky eater, I enjoy and can typically get brave enough to try new things.

## Why I Enjoy Client Success

It is always fascinating to see how other health organizations are being innovative. Getting to learn and collaborate with them is one of my favorite parts of this role. I enjoy getting to work with a variety of specialties and service lines. Being able to combine my background and knowledge of our product with our client's expertise to reach their goals is truly rewarding for me.

## How I Can Help

By being a former marketing manager and liaison, I can relate to the challenges faced and the victories sought.

I want to partner with you in understanding your market and how Marketware's insights and solutions can help your organization grow. I will be available to help you drill down into the details while also participating in looking at your strategy from a high level overview.
