

# Carrie Bennett

VP, Client Strategy

## Experience

My background includes collaborating with physicians, hospital leaders, practice administrators and other business partners to develop and implement strategies designed to strengthen and grow targeted service lines. In addition to launching a nationally recognized physician relations and onboarding program, I have worked with over 60 hospital leadership teams to improve their H-CAHPS and physician satisfaction performance. I have also facilitated the implementation of a variety of physician alignment structures to support focused physician education and engagement related to improving quality and reducing case costs.

In addition to graduating from The College of William and Mary and pursuing an MBA with a concentration in Healthcare Administration, I am Board Certified in Healthcare Management by the American College of Healthcare Executives.

### Over 15 Years of Experience in a Variety of Health Care Settings

- St. Joseph's Candler Health System
- LifePoint Hospitals
- Coastal Carolina Hospital
- Memorial Hospital of Martinsville-Henry County
- American Heart Association

## Why I Enjoy Client Strategy

I find it fun to brainstorm with others on how we can build something bigger and better together. My favorite projects are those where all the parts feel scattered around the table like a broken puzzle until a team works to align the pieces together in a specific way to create a shared vision for success.

## How I Can Help

As an extension of your growth team, I will partner with you to bridge the gap between the data you need and the outcomes you expect. This may be to include quantifying missed opportunities, developing supportive plans for harnessing and redirecting targeted patient pipelines, creating purposeful tools to enhance your team's success, and communicating any unmet needs. It may also involve developing intentional tools to enhance your team's success. I will also support your team by listening and communicating any unmet needs in a way that inspires future product development. I look forward to building dynamic partnerships with key stakeholders that will help strengthen and grow targeted service lines.
